Paul Hencke, Editor

Dear Mr. Thuerner

Thank you for your help and sorry if my query placed  
any burden on your staff.

Here's copies of the newsletter in which we discuss  
the research race. Next issue probably will have a story on  
communism and if so, will send you copies since I think it will  
contain references to Mr. Colby's testimony last year when he  
explained "reverse engineering" as practiced by Russia to see what  
it can get from an American product that was not built into it  
originally.
